Asynchronous	<input type="checkbox"/>						
Mixed (Synchronous + Asynchronous)	<input checked="" type="checkbox"/>	50 percent is asynchronous includes reading textbook chapters by students, listening and watching chapter videos, reading and answering study questions by students. Remaining 50 percents comes from participating on weekly online lecturing videos, how to solve study questions and independent Q&A of students. In some cases LIVE or ZOOM face to face environment might be arranged. In these cases students have to participate on discussions, not just listening. It is important that students should be encouraged to read original textbook chapters which may significantly improve their English level.

Information about Course	The course aims to provide students with the basic concepts and fundamentals of Cost Accounting. This is an introduction to Cost Accounting. Accounting Practice is complex. It involves the simultaneous application of numerous interrelated concepts. To provide effective learning, concepts are isolated and introduced in a logical sequence. The application of accounting concepts to business practice should be the end result rather than the starting point of the educational process.
